

ADD \rightarrow 3 i) Explain How US make dollar as foreign reserve?
Why US becomes USA?

Terminology

1. Trade deficit
2. CAD deficit
3. Fiscal deficit
4. Inflation and deflation + 1) video 2) Prices 3) Effect on Market
People or Jobs and Government
and...
5. GDP

\rightarrow 1

- Tell Ask them to identify the odd one

\rightarrow 2 Explain the diff between Gold and Money

- Both Properties
- Why Money > Currency
- Purchasing Power

Currency

\rightarrow 3 How \downarrow Came into existence (Monetary History)

Explain this so they can relate with the history

10 yrs in terms of video

- 7 stages of empire

3rd to last unit

\rightarrow 4 7 stages of Empire (What happens when country use deficit funding from coin and public in history)

ADD \rightarrow 3) Explain How US make deficit as foreign reserve?
a) Why US becomes USA?

Terminology

1. Trade deficit
2. CAD deficit
3. Fiscal deficit
4. Inflation and deflation (+) 1) Video 2) Prices 3) Effect on National
Debt or Jobs and government
spending
5. G.D.P

\rightarrow 1

- Tell Ask them to identify the odd one

\rightarrow 2 Explain the diff between Gold and Money

- Both Properties
- Why Money > Currency
- Purchasing Power

Currency

How \downarrow Come into existence (Monetary History)

Explain this so they can relate with the history

Use this in terms of Video

7 stages of empire

Just to link with it

Stages of Empire (What happens when country use deficit funding from central bank and public in history)

Credit Card is like the invisible Money
#5 ADD but it flows in the Supply as regular money
unless it's paid.

→ 5- What is the comparison of Supply of Cur-
rent Currency Supply, credit card Credit Produced
Money and gold with Chart

← Along with Q&A in explanation

- How ~~it~~ does the accounting of the Supply-
Gold

- Also how ~~the~~ credit card and loan money are
created into the Supply.

→ 6- How Money comes into existence from nothing

- Why the Currency Supply barrier is a Scam

PP 4

- Understanding the G.D.P (Keynesian Delusion)

- Banks only holds 15% of the deposits (PP 5 24:00)

- They are known as fractional Reserve Lending
PP 20 times of DRS

- 7. The Current Indian Debt

→ 7- Why you need to know this.

- Situations like such brings the people's Will down
and bring them into fear which can lead
to

1) Dictatorships

2) The Cry for Collectivism

Collectivism is dangerous and it doesn't work for a time
again history has proven that Maximum Prosperity can only be
achieved through individual freedom and free
markets and Sound Money.

PP 21:22

FOR EDUCATIONAL USE

#53 Credit Card is loan An invisible Money
but it flows in the Supply as regular money
unless it's paid

→ 5- What is the comparison of Supply of Govt
Currency Supply, Credit Card Produced
Money and gold with Chart

→ Along with Q.E in explanation

- How ~~it~~ does the increasing of the Supply
Gold

- Also how ~~the~~ Credit Card and loan money are
Created into the Supply.

→ 6- How Money comes into existence from nothing
- Why the Currency Supply barrier is a Scam

EP4

- Understanding the G.D.P (Keynesian Delusion)

- Banks only holds 15% of the deposits (EP5 26:00)

- They are known as fractional Reserve Lending
{ 0.15 is 15% of 0.85 }

- 7. The Current Indian Debt

→ 7- Why you need to know this

9- Situations like such brings the people's will down
and bring them into fear which can lead
to

1) Dictatorships

2) The Cry for Collectivism

EP5 15:20

is dangerous and it doesn't work how to have
from that Maximum Prosperity can only be
achieved through individual freedom and free
market and Sound Money

EDUCATIONAL WISE

more people that age from 65-100
A burden are taken by
age 65-65 but they could be
reduction
more crises

- The winter is the deflationary cycle
- They use to have time period of 50 year
- But it has been short-cut may be a period of human life time
- The young people that faces these deflation in the form of great depression becomes very high risk adverse, frugal, etc because of the depression
- We should do things plan our things in such a way that they don't affect our generational wealth
- = East/West Cycle

Ep. 6 15.19 → full watch
early up

→ ~~2~~ There's going to be more people that age from 65-100 in an economy who's burden are taken by the working age group 45-65 but they could be far less in pop. population

- let to have price crises
- PE Ratios
- The Kondratiev Wave

- The Winter is the deflationary cycle
 - They use to have time period of 50 years
 - But it has been stretch-out may a period of human life time
 - The young people that faces these deflation in the form of great depression becomes very frugal, risk adverse, frugal, etc. because of the depression
 - We should do things plan our things in such a way that they don't affect our generational wealth
- = East/West Cycle

Ep. 6 15.19 → Full Watch
Really interesting

→ ~~the~~ there's going to be more people that age from 65-100 in an economy who's burden are taken by the working age group 45-65 but they could be far less in pop. population

- let to have price crises
- PE Rakeos
- The Kondratiev Wave

- The winter is the deflationary cycle.
- They use to have time period of 50 year
- But it has been shrunk-out may a period of human life time
- The young people that faces these deflation in the form of great depression becomes very frugal, risk adverse, frugal, etc because of the depression
- We should do thing plan our things in such a way that they don't affect our generational wealth.
- East/West Cycle

Ep. 6 15:19 → Full Watch.
Early morn.

- 8 → 9 - The 1st Story, continue from the 7 stages where
- GDP will not crash by changing the supply but rather by the individual growth.
 - The deflationary period along with what futures hold (German story of hyper-deflation)

FP: 7 9:33

Along with the One Example

→ 10 Recap of #11 in FP: 9 & FP: 10

- Suggestion to invest in gold & silver
- Technologies like Bitcoin, Ethereum, etc that can run the monetary system
- Other to allocate portion of portfolio to the rising tech in this field
- Disinclined Server May be to further interactive if any of you got any other things to say.
- How to Benefit from recession

- 8 → 9 - The 1st Story, continue from the 7 stories where
- GDP will not work by changing the supply but rather by the individual growth.
 - The deflationary period along with what future hold (German story of hyper-deflation)

FP: 7 9:33

More kind like the example

→ 10 Recap of All in EP: 9 & EP: 10

- Suggestion to invest in gold & Silver
- Technologies like Bitcoin, Ethereum etc that can run the monetary system
- Other to allocate portion of Portfolio to the rising tech in this field

Discard Some May be to further interact if any of you got any other things to say.

- How to benefit from recession

- 8 → 9 - The Story continues from the 7 stages when
- GDP will not work by changing the supply but rather by the individual growth
 - The deflationary Period along with what future hold (Germany story of hyper-deflation)

FP: 7 9:33

Along with the
example

→ 10 Recap of All in EP: 9 & EP: 10

- Suggestion to invest in gold & silver
- Technologies like Bitcoin, Ethereum, etc that can ^{change} the monetary system
- Offer to allocate portion of portfolio to the rising tech in this field
- Dixon's Sense may be to further interaction if any of you got any other things to say
- How to benefit from recession

Trade deficit. (-ve balance)
 Export \downarrow Import \uparrow - loans for Foreign Reserves.
 Export \uparrow Import \downarrow - Profitable Foreign Reserves
 Trade Surplus (+ve balance)
 Balanced Foreign Reserve

GDP (Gross Domestic Product)

- It only includes the goods and services that are made domestically
- It only includes the finished goods and services

Labour, Land, Capital & Management
 $\downarrow \quad \downarrow \quad \downarrow \quad \downarrow$
 Net National Income = Wages + Rent + Interest + Profits
 + depreciation + Net Foreign Factor Income (NFFI)
 Before Tax
 After Tax

GDP (Market Cost) = GDP (Factor Cost) + Indirect Taxes - Subsidies

Trade deficit (-ve balance)
 Export \downarrow Import \uparrow - loans for Foreign Reserves
 Export \uparrow Import \downarrow - Profitable Foreign Reserves
 Trade Surplus (+ve balance)
 Balanced Foreign Reserve

GDP (Gross Domestic Product)

- It only includes the goods and services that are made & consumed
- It only includes the finished goods and services

Labour, Land, Capital & Management
 $\downarrow \quad \downarrow \quad \downarrow \quad \downarrow$
 Net National Income = Wages + Rent + Interest + Profit
 + depreciation + Net Foreign Factor Income
 (NNP)
 Before Tax
 After Tax

GDP (Market Cost) = GDP (Factor Cost) + Indirect Taxes - Subsidies

CAD Deficit 1 mai Sub se Jyada
Trade deficit ka portion hota hai

CAD Deficit ka

To Trade deficit Jyada hote hain

Trade deficit \uparrow Surplus Invisible Surplus \downarrow
account

hain ke waje se CAD Deficit hota hai

① \downarrow growth \uparrow Unemployment

② \nearrow

To Control CAD deficit

- Increase dept
- Borrow More Dollars from Other Countries.
- Sell Government Bonds, Sell Corporate Bonds.
- Sell Company Shares.

CAD Deficit & net. Sub se Trade

CAD Deficit ka

Trade deficit se hone

Trade deficit \uparrow Surplus Invisible Surplus \downarrow
account

hame ke waje se CAD Deficit hota hai

① \downarrow growth \uparrow Unemployment

② \times

To Control CAD deficit

- Increase export

Borrow Money Dollars from other countries.

Government Bonds, Sell Co-operative Bonds,
Company Shares

① If the Debt Grows the ~~in~~ Trust (↓)
~~increases~~ that Results in Pullout the
Funds, Selling of the Country's
Currency Prices, etc. depreciating in
the Value (↓)

② People will dislike the cost they have in
that country and will ~~use~~ shift to other
countries

③ Economics Crisis

④ Exports becomes cheaper and Imports
becomes expensive

⑤ ~~It will stop~~ stagnation if it doesn't
not correct its self

⑥ i.e. if the exports don't increase that
much to ~~offset~~ offset the imports

① If the Debt Grows the ~~in~~ Trust (↓)
increases that Results in Fallout the
Firm's, Selling of the Country ~~for~~
Currency Prices, etc depreciating in
the Value (↓)

② People will dilute the asset they have in
that country and will ~~move~~ shift to other
Countries

③ Economics Crisis

④ Exports becomes cheaper and Imports
become expensive

⑤ ~~is the situation~~ if it doesn't
not correct the ~~the~~ sells

⑥ i.e. if the exports doesn't increase ~~the~~
enough to outlying the imports

Hidden Secrets Of Money

The difference between Currency and Money

- Money must be a store of value and maintain its purchasing power over long periods of time

11-29 All National Currencies are the tools that are used by the government to leech away your time and your freedom by stealing your purchasing power.

- Currencies leaks

Gold doesn't go belly up and

cannot be ~~and~~ increased

AP.1

Hidden Secrets Of Money

The difference between Currency and Money

- Money must be a store of value and maintain its purchasing power over long periods of time

11.20 All National Currencies are the tools that are used by the government to leech away your time and your freedom by straining your purchasing power

- Currencies leaks

Gold doesn't go bad

can't be sold

and cannot be improved

The Current Situation
is a mess

- Prices goes \uparrow & not because the stuff that you are planning to buy is changing but currency purchases less and less
- Its currency going down and not prices going up

All are Parities
